ISSUED EVERY TUESDAY MORNING IN TIME FOR THE MAILS

The Anti-Vicar's Rate Agitation at Coventry.

On Wednesday morning a further attempt was made to sell by public auction, the goods seized under distress, warrants issued for non-payment of vicar's rate due to the Rev. F. M. Beaumont, vicar of Holy Trininty, Coventry. An attempt was made to dispose of the goods at the Assembly-room of the Corn Exchange on Monday, but proved unsuccessful, owing to the effectual opposition of conscientious objectors to the rate and the rowdy conduct of the rough element present. Every precaution was taken to bring the present sale to a successful issue. Rumours were circulated that the sale was indefinitely postponed—a report which gained some credence, owing to the fact of the sale being in no way publicly announced. The Anti-Vicar's Rate Association hearing, however, that the sale would take place, issued placards announcing it and requesting the public to attend. The large entrance to the Exchange Buildings was closed, the public gaining admittance through a side door which led to the sale room by a long narrow passage and staircase. At this door a strong force of police was posted for the purpose of preventing more than a certain number of persons entering, whilst policemen, both in plain clothes and in uniform, were stationed in different parts of the sale room. The door was thrown open to the public at 11 o'clock, an ugly rush being made to obtain admission by the thousands who had gathered outside. The police arrangements were, however, effective in preventing more than the number of persons than the room could conveniently hold from entering. The rough element again managed to effect an entrance, and it quickly made its presence felt. Resorting to the tactics employed on Monday morniug, the people commenced by singing "Rule Britannia," accompanied by stamping of feet. The cries from the street informed those within that the doors were closed, and this speedily created a demand for the doors to be opened, which was passed by unheeded by the police. The appearance of the auctioneer was greeted by howls and groans, followed by a repetition of "Rule Britannia," a song which appears to be popular amongst the disturbers of the sale. Notwithstanding the uproar which prevailed the auctioneer persisted in reading the conditions of sale, though itwas quite evident that it was impossible for any one to hear him. Amid loud cheers, Mr. Peirson, secretary of the Anti-Vicar's Rate Association, got up and informed the meeting that Mr. King, the auctioneer, had just read the conditions of sale, adding that it was impossible for any one to hear them. Continuing, Mr. Peirson said, "Fellow citizens. The opinion of the town being manifested by the many thousands assembled in the Pool Meadow on Monday night, making it perfectly clear that the large majority of the citizens of Coventry are anxious and determined that the rate should immediately cease, I wish earnestly to offer the following recommendation:—That we should listen to the auctioneer (loud cries of "No, no, and "Let the vicar sell") in perfect silence, allowing him without interruption to discharge his most unpleasant duty of selling the goods seized for the non-payment of the Vicar's Rate from persons who have a conscientious objection to such methods of supporting religion. I therefore ask this assembly, strong in the sense of the righteousness of our cause, to offer no interruption whatever." The remarks of the secretary of the Anti-Vicar's Rate Association were listened to in perfect silence, and were repeatedly and loudly applauded. Mr. King, the auctioneer, then proceeded to read the conditions of sale, something like order being maintained. Immediately he had finished the uproar again commenced, loud demands being made for the doors to be opened and caterwauling and whistling being freely indulged in. Mr. B. Haymes, one of the members anti-rate of the association, whose goods have been distrained, mounted the rostrum and announced that the auctioneer had informed him that the sale was postponed indefinitely. The announcement appeared to cause general surprise, and, in the silence which ensued the auctioneer rose and expressed his desire to go on with the sale if they would permit him. He was merely there as a professional man to perform a very painful duty. He hoped he should have their attention. The few words of the auctioneer were quite sufficient to again stir up the audience to fever heat, and the disturbance and disorder were again general. The disorder continuing, the auctioneer left the room without making any statement as to his future intentions. The audience, however, remained, thinking it possible that the auctioneer might return if they left and effect a sale in their absence. They passed the time in singing "Rule, Britannia," and giving cheers for the Anti-Vicar's Rate Association and for the forbearance shown by the police. A consultation was held between the police inspector and the secretary of the Anti-Vicar's Rate Association, the inspector promising to give the members of the association due notice of the sale. This arrangement was announced, and the public then quietly dispersed, the city recovering its normal condition before 2 o'clock. It is reported to be probable that the auctioneer, recognizing the impossibility of selling the distrained effects by public auction, will dispose of them by private contract, this mode being declared legal under the Vicar's Rate Act, which says the vicar may levy the sum or sums due by distress and sale of the goods, but does not specify whether publicly or by private contract.—*Times.*

Mr. J. B. Plumb will, it is generally believed, succeed Hon. Adam Hope in the senate.

The keeper of the lighthouse on Lonely Island has been called on by the Department of Marine and Fisheries to explain his conduct in connection with the alleged robbery of a victim of the Asia disaster.

At the Norfolk Assizes on the 19th ult. a novel action for damages for assault and trespass on plaintiff was brought by a young married woman against a wealthy farmer 63 years of age, married and the father of a family. The usual way of bringing similar cases before the court is by a criminal charge. The jury returned a verdict for $100.

A telegram has been received in Toronto from Mr. Geo. Stephen, President of the Canada Pacific Syndicate, stating that Regina has been absolutely fixed as the capital of Assinnaboia.

The committee have secured subscriptions for $20,000 towards the testimonial to Sir Hector Langevin. They will endeavour to secure another $12,000 before closing the fund.

Some twelve or fifteen years ago when Mr. Geo. Holman managed the old Lyceum in Toronto, many officers used to go to the theatre, and associated with them were half a dozen young fellows who were given free access to the performances. This morning Mr. Holman was surprised to receive a letter as follows: "London, Sept. 25, 1882.—Mr. and Mrs. Geo. Holman—For admittance into theatre. £10; some time ago, before the theatre was burned down. (Signed), Old Theatre-Goer."

A curious story comes from Beauharnois Village. It is in effect that Benj. Legault, of Beauharnois has entered an action to prevent the second marriage of his sister, Dame Emillie Legault, widow of Mr. Lambert Lessier, to Felix Cardinal, of St. Stanislas. He alleges that the defendant is 65 years old, and possesses a fortune of $100,000, and that the union is only contemplated to injure him, the complainant.

Through the falling of a lighted chandelier in a Baptist church at Roxbaro', N. C., during divine service Wednesday evening several persons were seriously injured by the burning oil. The prompt action of the church officers averted the usual fatalities consequent upon a panic.

Mr. and Mrs. John Cochrane, of Brampton, have completed the sixtieth year of their wedded life, the event was celebrated yesterday by a social gathering at the residence of Mr. Haggert, at which about 150 guests were present. After the banquet speeches of an appropriate character were made, and a pleasant evening was spent.

A collision is imminent between the Mayor of Montreal and the Police Committee over the funeral honours to be paid a late alderman. The Police Committee had ordered the city police to join in the procession to the grave, whilst the Mayor forbade any such thing. The Mayor is likely to carry his point, as the supreme authority is vested in him.

In consequence of the recent developments an order has been distributed in the Montreal City hall announcing that any official found inebriated during the business hours will be discharged peremptorily by the Mayor. The order has come none too soon. Mr. Spicer, general superintendent of the Grand Trunk, has also informed the employés that intemperance will result in their summary dismissal.

The case of Miss Wright, of Brighton, Ont., who was recently sentenced at Cobourg to six months' imprisonment for manslaughter, is under consideration by the government, and there seems to be every probability that the unfortunate young lady will be liberated before the rigour of the law brings her into contact with the criminals to whose society her sentence would doom her. The cases of Albert the High park constable, and Lee, the Napanee murderer, both of whom have been sentenced to death, are also receiving the consideration of the department of Justice.

About 11 o'clock on the morning of 18th ult. Joseph B. McDonald, barrister of Arichat, who was boarding at Crowdes' hotel, in Baddeck, C. B., broke the window of his bedroom, threw a pitcher out, and extending his arm from the window discharged a pistol he held in his hand several times. James Crowdes, proprietor of the house, who was on the road in front of the hotel with some other men was struck in the chin by one of the balls which lodged in his neck, and remained there. McDonald was at once arrested. He was intoxicated at the time and making much noise, and it is not known whether he intended to shoot Mr. Crowdes. He arrived at Baddeck on Saturday to attend the sittings of the Supreme Court there.

KINGSTON, Oct. 18.—Some one in Toronto is minus a fine team of chestnut horses. The thief passed Kingston, picking up on his way a load of grain. At Brockville the property was abandoned on the police suspecting the action of the driver. Subsequently horses were stolen from Gananoque, supposed by the same thief.

WINNIPEG, Man., Oct. 18.—The Portage, Westbourne, and North-Western Railway, it is rumored, will before many days pass into the hands of Sir Hugh Allan and his associates.

There is considerable agitation over the proposed South Saskatchewan Railway at Prince Albert, N. W. T. The intention is to run a line from a point near Qu'Appelle, on the Canadian Pacific Railway, to Prince Albert, thence to the Peace River country. By next year trains will be running between the rivers.

A former resident of Toronto named Archibald Cooper was, it appears, killed during one of the engagements at Kassassin, in the late Egyptian campaign.

The Hon. John Hibbard, American consul at Goderich, died yesterday morning, after a brief illness.

The harvest in Manitoba has been a good one. At one place 104 bushels of wheat were threshed from two acres. This is a good showing; but Ontario has done as well. Oats have averaged 44 bushels and barley 30.

It is understood that Judge Mackay, of the Superior Court, Montreal, has been retired, and will be succeeded by Judge Doherty, of Sherbrooke.

The coldest place on earth is not, as has hitherto been believed by meteorologists, Yakutsk, in Siberia, but Verkoyansk, in the same region, lying in 67½ degrees north latitude, on the river Yana. Its lowest mean winter temperature is 48 6-10 degrees below zero centigrade. This is the cold pole of the earth in Asia, the corresponding pole in America being to the northward of the Perry islands, and the line joining these two places does not pass through the north pole itself, which is thus, in all probability, outside the line of the greatest cold. On the other hand, the greatest heat in the tropics is not at the equator, but some distance north and south.

Dispepsia

is the most common of all diseases, and under ordinary drug treatment the most difficult to cure, it is a chronic weakness of the stomach with indigestion. The sensitive mucous membrane coating the stomach becomes irritated, and nearly all that enters the stomach continues to add fuel to the fire. Heartburn and Sour Eructions, Belching of Wind, Nausea, Headache, Variable Appetite, Costive Bowels, etc., are its prominent symptoms. Burdock Blood Bitters is a positive cure for this miserable disease. 28

Corsets.

We have been appointed agents for British Columbia for the "Crompton Corset Company." Fifty dozen new styles corsets received by last steamer. These corsets being of Dominion manufacture pay no duty. They eclipse in style and price any corsets ever shown here. Ask for them. The trade supplied on special terms. A. B. Gray & Co., Albion House. *2w

DR. CHAN TAN TONG from Canton,—Skilfully and confidentially treats diseases of men, women and children. Office Government street, near Johnson street.

Dr. Chan Tan Tong practiced medicine at San Francisco for ten years and has had great experience. *

Robert A. Wilson, Dispensing Chemist, Brockville, says under date of June 5th, '82. "I have not the slightest hesitation in saying that Dr. Fowler's Extract of Wild Strawberry has given my customers more satisfaction than any medicine in my store for the cure of Summer Complaints, Diarhœa, Dysentery, Pain in the Stomach, Sea Sickness, Piles, etc., you can use my name, etc." 29

J. R. Bond, Druggist, &c., Schomberg writes, "I have sold medicines for over twenty years, and no medicine could give better satisfaction than your Dr. Fowler's Extract of Wild Strawberry." This medicine is the old reliable cure for Cholera Morbus, Dysentery, and all Summer Complaints. 30

EASE by day and repose by night are enjoyed by those who are wise enough to apply Dr. Thomas' Eclectric Oil to their aching muscles and joints. A quantity easily held in the palm of the hand is enough to relieve the most exquisite pain. 63

PUBLIC Speakers and Singers will find Fellows' Syrup of Hypophosphites of inestimable value, as it speedily and effectually allays all irritation and huskiness and gives power to the vocal chords, rendering the voice clear and sonorous. *

GOLD AND SILVER SANDALS, white and black satin slippers, just received at THE CITY BOOT AND SHOE STORE, Fell's Block, Fort street. G. H. MAYNARD. 1m* .

A SURE cure for dyspepsia. The Oregon BLOOD PURIFIER. Use before meals as directed. *

A Word of Caution.

Beware of Opiates and powerful astringent drugs in the treatment of Bowel Complaints, they may lull the pain and check Diarhœa, etc., but are liable to produce inflammation. Dr. Fowler's Extract of Wild Strawberry is guaranteed safe and reliable, even for Infants, and is a specific for Cholera Morbus, Dysentery, Colic, Acute or Chronic Diarhœa and Summer Complaints generally. 27

Kidney Complaint.

The secretion from the Kidneys is often loaded with foreign and poisonous matter, a thick brickdust like sediment or a mucous collection forms. The Kidneys are often inflamed and congested causing pain and weakness in the back and many distressing symptoms. Diabetis, Bright's Disease, Dropsy, and all Urinary Complaints are promptly cured by that grand combination of diuretics, alterative tonics, &c. Burdock Blood Bitters. 25

How it Works.

The purifying and healing properties of Dr. Fowler's Extract of Wild Strawberry impart a healthy tone to the diseased mucous surfaces of the Stomach and Bowels. Its cooling, soothing properties counteract pain, its antiseptic properties correct canker and foul humour, and its tonic astringent nature corrects all exhaustive discharges—Such as Dysentery, Diarhœa, Cholera Morbus, and Summer Complaints generally. 26

Blank Book Manufactory and Book Bindery.

Paper ruled to any pattern. Tickets, Receipts, etc., numbered and perforated. Charts and maps mounted. The best classes of modern machinery employed R. T. WILLIAMS, Government street, entrance through Messrs. Hibben & Co's store. *

EVERYBODY SUFFERS PAIN. It is the result of sin and a violation of nature's laws. The great Creator of the universe in his infinite mercy has done much to allay the sufferings of his people by giving them out of nature's store-house a "balm for every wound." Such is the Pain-Killer made by Perry Davis & Son; it stops pain almost instantly, it is used both internally and externally, and is of all other pain remedies the oldest and best. *

NEW ARRIVAL OF PIANOS. — Messrs. Bagnall & Co. have the most splendid display of Pianos and Organs ever exhibited in the city; some choice Violins, Guitars, brass and nickel-plated Cornets, and everything pertaining to the music trade. Pianos and Organs for hire. Tuning and repairing by J. Bagnall. Government street, Victoria. *

Messrs Pfunder & Co., Portland.

GENTLEMEN:—I enclose you P.O.O. for last lot of Oregon Blood Purifier, which came safe to hand. It is a regular CURE ALL. I have got entirely rid of my RHEUMATISM and have cured all kinds of chronic cases by making them go according to the directions, some of them the doctors had given up. Why don't you send a lot out here and start an agency? You could sell any quantity of it, as everybody who has tried it says it is the best medicine they ever took. With many thanks, and wishing you every success,

I remain, yours truly,

THE BACKSLIDING DRYDOCK.

"The $10,000 land slide, for which the Opposition press holds the government responsible, was caused by the recent heavy rainfall. It is a terribly bad government that is unable to check the elements."

The above appeared in the organ of the local grit government yesterday. It is a frank and free announcement that a tremendous earthslide has occurred at the dock and that the damage is at least ten thousand dollars. An honest confession is said to be good for the soul, and if one grit contemporary's soul is not relieved of a heavy load by the acknowledgment quoted we shall be grieved. It would be wrong to hold the government responsible for the work of the elements, and no sensible or honorable writer would try to do that. But when articles are left out of doors overnight and the rains descend and the floods come and the articles are spoiled, are not the parties who failed to protect the property open to censure? This is the case against the government. They declared forfeit $10,000 deposited by McNamee & Co., the contractors, and undertook to construct the dock by day's work. They raised a great mass of earth and piled it on either side of the excavation. They failed to give it sufficient slope or to provide for its protection in any way. When the rain fell it first loosened and then caused about 10,000 cubic yards of the earth to slide back into the pit from which it had been taken. Now, although the government did not cause the rain to fall they failed to provide against its ill effects and hence the damage, which the organ estimates at $10,000, which, strange to say, is the exact amount forfeited by McNamee & Co. The government are like children playing with edged tools. They have undertaken to build a drydock, the cost of which they do not possess the slightest idea. In their first estimate for cement there was an error of 7,000 tons; and it is therefore reasonable to suppose that in every other particular there has been an equally absurd blunder. The public learn through the organ almost daily of fresh contracts being awarded without the authority of the legislature; of men being employed by the day in defiance of a resolution of the house, and of other flagrant encroachments upon the constitutional rights of the people. All these acts are being done by a government who are under the ban of popular disapproval; who have been whipped at the polls and who, among the 25 elected, cannot count more than four supporters—their own three votes included. The government are gone—utterly. There is no "health" in them and the illegalities they are perpetrating now are only increasing their unpopularity and rendering their early fall more certain.

The Squatters' Address and His Excellency's Reply.

GOVERNMENT HOUSE, VICTORIA,
3rd Nov., 1882.

TO THE EDITOR OF THE COLONIST:—As the article entitled "railway squatters' address to His Excellency and reply" in *The Daily Colonist* of 3rd inst., does not give a correct version of what passed at the interview of the deputation with the Governor General, I beg to enclose a short statement of the remarks of His Excellency on this occasion.

Your obdt. servant,
F. DEWINTON.

His Excellency said in reply that he was glad to see the deputation whose printed address he had only at that moment seen. He enquired where the lands spoken of were and informed the deputation that he did not think their case would at all come before the federal government, for the lands in the railway belt on the island were now in the hands of the provincial government. That as they had been reserved for railway purposes it seemed to him the squatters might have claims in equity though they had none legally. As far as the federal government was concerned they must distinctly understand that they had in all probability nothing to do with questions of property under the present state of affairs in regard to the railway belt on the island, but that elsewhere the federal government had been always extremely considerate with regard to the claims of squatters; but it was not within His Excellency's knowledge that in any case the federal government had allowed mineral claims to be purchased by payment only for the agricultural value of land. That in the old country as well as in the Dominion mineral rights were always considered separately from agricultural rights. In the old country minerals were reserved, and if any damage by mines was occasioned to agriculturists, surface damages had to be paid by the owners of the mines, and that he would not, for his own part, think it well that mineral rights should be granted unless expressly named.

ENORMOUS EXPORTS.

Six Hundred and Seventy-five Thousand Dollars in October.

The exports of fish, lumber, coal, and other products from the port of Victoria during the month of October reached the enormous sum of six hundred and seventy-five thousand dollars. The exports for the year will be over four million dollars; and the customs duties paid will exceed one million dollars. No port of 7000 inhabitants in the world can present a showing as favorable. The figures are evidence of the extraordinary richness of the country and the vastness of its resources.

PARSON'S BRIDGE HOTEL.—Price Brothers have decided to tear down the present wooden structure and erect in its place a handsome and commodious brick hotel for the accommodation of families, tourists and sportsmen. This will prove a great public accommodation.

CONTRACT FOR MEAT AND VEGETABLES.—Mr. B. Van Volkenburgh of this city has been awarded the contract for supplying Her Majesty's ships on this station and the navy yard with meat and vegetables for the next three years.

THE CHINESE---IMMIGRATION---ISLAND RAILWAY.

AN INTERVIEW WITH HIS EXCELLENCY THE GOVERNOR-GENERAL.

Mr. E. C. Baker and Mayor Shakespeare, M.P.s, and Premier Beaven had an interview yesterday with His Excellency the Governor-General, when the above subjects were discussed. The visitors urged with all the eloquence at their command the importance of restricting Chinese immigration and substituting for that class white labor on the railway works. It was pointed out that in the opinion of the interviewers the Ottawa government should place a share of the Dominion immigration fund at the disposal of this province so that European laborers might be assisted to reach the country. His Excellency did not question the justice of this claim, but did not think the railroad could be constructed in a short space of time without the aid of Chinese. With regard to the Island railway His Excellency said he hoped to see it undertaken very soon; but intimated that that end might not be attained if restrictions as to the kind of labor to be employed were imposed. With regard to the railway lands the governor general said he was of opinion that the late government in repealing the Island railway reserve act took the lands out of the hands of the federal government. Premier Beaven endeavored to combat this view; but he failed to convince His Excellency. The deputation then withdrew, highly pleased with the frankness and sincerity with which they had been met.

What Some People Say.

That Hon. J. W. Trutch with Mr. Marcus Smith will go over the line of railway next week.

That the Elder's Sound passengers came ashore yesterday and appeared to enjoy the fine weather.

That the chief commissioner visited the drydock yesterday and gazed with melancholy interest on the ruins of the embankment.

That it was observed that he kept at a safe distance from the edge and crossed the crack in the portion that is still standing on all fours.

That when he regained a perpendicular attitude his knees were observed to be muddy.

That one of the workmen said, "excuse me, sir, but I thought you was praying."

That "so he is," growled another workman, "Preying—on the public."

That the grit organ says *The Colonist* makes a mountain out of a molehill. Not at all. It was the government that converted a hill of earth into a level plain at the dock.

That the new directory describes the farming, manufactures and solid interesting of the country; written by those who have resided here for years and every statement is reliable.

That it will have and ought to have an extensive sale.

That the Vice-Regal party will sail for Ottawa about the 5th December.

That it will be observed by reference to the authorized report of His Excellency's reply to the squatters' address,

That the governor-general is of opinion that the last act of the Walkem government in repealing the Island railway reserve act took the lands out of the hands of the federal government.

That Mr. Beaven does not agree with His Excellency and the law advisers of the Crown.

That the recent dividend of the Bank of Montreal having been less than was anticipated stock has declined 2 per cent.

That ladies of the Methodist Church intend giving a sociable in the lecture room Tuesday, 14th. Admission, 25 cents, including refreshments.

Stolen Silver Recovered.

Yesterday morning a native of the flowery kingdom called on Mr. E. J. Salmon, of Johnson street, with half-a-dozen spoons, four of which were silver and the others heavily plated, and wanted to sell them. Mr. S. at once surmised that they were not honestly obtained, as the four silver ones were each inscribed with a baptismal name and the date of the person's birth to whom it had been presented. On asking John where he got the articles he replied, "Me catch 'em." Where did you catch 'em? "Me catch 'em over there." By this time Mr. Salmon had come to the conclusion that the spoons had been stolen from the Driard House at the late fire, and asking him to call again he retained the articles. Going over to the Driard he ascertained that they belonged to Mr. Hartnagel's family, his children's names and dates of birth being inscribed on them. The fellow, however, had not called for the spoons or the price of them up to closing time last night, and the probabilities are that he will keep out of the way for a while and give Mr. Salmon a wide berth.

FRASER SANDS LIGHTHOUSE.

The Site Washed Away.

Nothing but disaster has attended the effort to construct an iron lighthouse at Frasermouth, and it seems that after two season's expensive and fruitless exertion to lay a foundation for the structure as if the attempt must be abandoned and a suitable lightship re established. The latest report from the spot is that the stones dumped there and cribbing have all been washed away or covered by the constantly shifting sand.

The Telegraph Service.

The public will be glad to hear that the Victoria office has been made a "night" office, and that the hours will in future be the same as those of the Seattle office. Dispatches will now be sent and received far into the night and press dispatches, in a short time, it is hoped, will be received regularly. The concession is a very valuable one to the public and will be highly appreciated. Thus has another means to a great end been accomplished.

DEATH OF MRS. MCGREGOR.—The many friends of this lovely and estimable lady will be grieved to hear of her death in the historic vale of Glencoe, Scotland, about a month ago where Rev. Mr. McGregor has been stationed since the departure of the family from the city. She was aged only 34 years and leaves several children and a devoted husband to mourn her loss.

FROM NEW WESTMINSTER—The steamer Western Slope arrived last evening from the Fraser with passengers and freight.

CAPTURED.—The Anderson murderers were arrested at San Francisco soon after the arrival there of the mail steamer from Victoria.

BRITISH COLUMBIA CANNED SALMON.

WHY IT IS MISTAKEN IN AUSTRALIA FOR CALIFORNIA FISH—A VALUABLE SUGGESTION.

The government at Ottawa have issued a blue book from the reports of the Australian international exhibition. In the report, page 136, the following paragraph occurs:

"Tinned salmon from British Columbia is a favorite dish in Australian households, but unfortunately it is often exceedingly difficult to distinguish its origin owing to its bearing the labels of the San Francisco firms who have forwarded the salmon to Australia. How comes it that the salmon-fishers in British Columbia do not tin and label the fish at the scene of their capture? And why should not an effort be made to "kipper" the "king of fish," and send it to Australia packed whole—a condition in which it is hardly ever seen in these colonies? In these days of rapid steamship transit the difficulties in the way of such a project are surely reduced to a minimum. In Tasmania in a higher latitude (south), as well as in some of the New Zealand rivers, attempts have been made, with comparatively but small success, to acclimatize varieties of the "salmonidæ," for the waters maintain rather too high an average temperature for successful salmon culture."

In justice to the local consumers we would state that a majority of the firms have anticipated the advice given by the commissioners and their goods now bear labels printed "at the scene of the fishes' capture."

Municipal Police Court.

(Before Hon. A. F. Pemberton.)

FRIDAY, NOV. 3, 1882.

ATTEMPT TO ENTER A HOUSE.

The remanded case of Ah Sam a Chinaman charged with being on the premises of Mr. Munsie, Pioneer street on the evening of the 30th ult., with the felonious intention of entering his house was continued.

Mr. Mills appeared for the prisoner.

Mrs. Evans, sworn—Stated that she lived next door to Mr. Munsie's on Pioneer street, and that on Thursday night week about 10:40 when going to bed, her husband being out, she was alarmed by a man prowling round the house and trying the doors and windows; he at last went away but returned a second time, after which her husband came home. She saw the man through the window and he wore a hat like the one produced belonging to the prisoner. She thought he might be a Chinaman in disguise as he had bushy whiskers.

Arthur Vipond deposed—He was a locksmith and that the brass key produced was a common house key, which with slight alterations might be made to open a variety of ordinary locks.

Officer Shepherd stated that he had placed the prisoner's and some other Chinamen's hats on the court room table that morning and that Mrs. Evans had selected the prisoner's hat as being most like that worn by the man she saw on Thursday night week.

Mr. Mills briefly urged that intention to commit a crime on the part of the prisoner was not sufficient, and that what took place in the neighborhood last Thursday week had nothing to do with the case.

His HONOR thought the evidence shewed the prisoner had a felonious intention and committed him for trial.

The prisoner was allowed bail in two sureties of $250, and himself in $500.

Preparing for the Great Fishery Exhibition.

In one of the brick buildings that adjoin the hook and ladder house Mr. Anderson, the fishery commissioner, has begun to arrange specimens for the Great London Fisheries Exhibition. There Mr. Anderson is engaged in preparing the skins of halibut, dogfish, salmon, trout, eels, etc., for shipment to Ottawa where they will be stuffed and mounted. Specimens of the crustacea are very numerous, and the variety and number of edible fish is really surprising. Among the most interesting articles shown are native fishing lines made of cedar and spruce bark, nets from native flax, and wooden fish hooks. Cases of canned salmon from the Delta Co., Laidlaw & Co., Adair & Co., British Union, Croasdaile & Co., Inverness and Aberdeen Co. are already in the hands of the commissioner and others will soon be received.

A Fourth Minister.

The government have decided to call to their aid a fourth minister. Had Mr. Humphreys been elected for Yale he would have been selected. His defeat has caused the premier to cast about in a new direction and should Mr. Hett retain his seat a fourth minister will be *Gazetted* in a week or two. The shifts to which the government have to resort in order to hold their portfolios are many and generally discreditable. But neither saltpetre nor a fourth minister will haul them through. "As Humphreys goes so I go." Humphreys went out; but Beaven still sticks.

THE LONDON FISHERIES EXHIBITION.—The London fisheries exhibition of 1883 is under preparation on a great scale. It is to cover an area of about a quarter of a million square feet. The rewards are attractive, and do not consist of unremunerative honors only. There is a prize of $500 for the best essay on catching and distributing sea fish, and another, also $500, for the best essay on the food of fish, while the best life boat exhibited will carry off the fine gift of $3,000. There is no doubt that even the great Berlin fish show will be surpassed by the one in London.

CHINESE THEATRICAL COSTUMES.—Yesterday the mail steamer G. W. Elder, landed no less than 18 trunks of similar make and dimensions, each being about a cubic yard in capacity, filled with costumes for the new Chinese theatre on Cormorant street. Besides these there were a number of packages for the same establishment. The proprietor paid $900 duty on this stage property. One costume is said to have cost $1600 in China before its importation into San Francisco; from which city the stock was brought by the Elder.

NEW GORGE BRIDGE.—Mr. D. F. Adams, has completed a new bridge at the Gorge. It is longer, wider and stronger than the old structure said is built on the bowstring principle. The length is 110 feet and the width 15 feet. The hill on either side of the Gorge is being cut down so as to afford easy and secure approaches to the bridge.

Steamship G. W. Elder will leave for ports on the Sound at 8 o'clock this morning.

A NEW ELDORADO.

Gold Found Under Extraordinary Conditions on an Alaskan Island.

Douglas Island is beginning to be the subject of conversation among miners interested in developing Takou quartz lodes and will probably be much more talked about in the near future than now. It is a sort of pear-shaped island some 25 miles in length and five or six in breadth at its widest part. The surface is irregular, rising at its highest point to an altitude of about 2000 feet. Its position is less than 100 miles directly north of the town of Sitka in about lat. 55 N. and long. 135 W. By reference to a map of Alaska it will be seen that this portion of the Takou region lies south of Dease Lake and the northern part of Cassiar. Two narrow channels separate it from Baranoff island on which Sitka is located with a large island named Admiralty intermediate. The mainland of Takou is about a mile and a half distant. The so-called placer diggings of Douglas island are really leads of decomposed quartz which lie near the surface under the subsoil and brush. Beneath this decomposed material the solid quartz ledges are found. The top stratum is easily washed through sluices, and is very rich. Other islands in the neighborhood which present similar characteristics are believed to hold gold under the same conditions. The placer miners have located the upper stratum and quartz miners the solid ledges; but the quartz miners cannot work their lodes until the others have exhausted their claims.

Marine.

Steamship Victoria arrived at Esquimalt yesterday morning with 1200 tons of Nanaimo coal. She took in 120 tons salmon there for San Francisco and the large canoe which has to go to the fisheries exhibition in London next summer.

Steamship Barnard Castle from San Francisco to Departure Bay will be due off the mouth of the harbor to-morrow morning.

THE ONTARIO BYE ELECTIONS.—The results of the bye election in Ontario for the local legislature are as follows: Glengarry, Bayside (R.), 24 majority; South Essex, Ralfour (R.), 68 majority; South Bruce, O'Connor (R.), 400 majority; East Simcoe, Drury (R.), 225 majority; West Hastings, Rose (Con.), 256 majority. The first two ridings named are Liberal gains; in the remainder the political complexion of the representative is unchanged. In North Renfrew Mr. McAllister, the compromise candidate, was elected.

A YOUNG GENTLEMAN ON HIS TRAVELS.—Yesterday afternoon a two year-old son of a gentleman on Johnson street, started off alone on a tour of exploration through the town and turning the corner of Government street, proceeded along till he got to the crossing opposite the Bank of B.C., when he was apparently attracted by the show windows on the opposite side of the street and attempted to cross over. In so doing he narrowly escaped being knocked down by passing vehicles. His further wanderings were here interrupted by his mother and sister taking him in charge.

THE following officers for the ensuing year were elected by the St. Andrew's and Caledonian Society last evening: President, Jas. Crawford; Vice-Presidents, J. L. Anderson and J. C. Keith; Treasurer, Donald Mackey; Secretary, John Ross; Assistant Secretary, James Russell; Chaplain, Rev. R. Stephen; Physician, Dr. Milne. The usual dinner will take place on St. Andrew's day, 30th November.

GOVERNMENT HOUSE.—On Thursday evening E. C. Baker, Esq., M.P.P., Mrs. Baker, and R. E. Jackson, Esq., and Mrs. Jackson; and last evening Capt. and Mrs. Dupont, M. W. T. Drake, M.P.P., and Mrs. Drake, and Hon. Capt. Ball, had the honor of dining with His Excellency the Governor-General and Her Royal Highness the Princess Louise.

THE STEAMER ENTERPRISE—The broken cylinder and walking beam have been removed from the steamer Enterprise, but as she is to receive a thorough overhauling both as regards her hull and machinery, she will in all probability not be in running order till Spring.

CALIFORNIA SHINGLES.—Among freight brought up yesterday by the Elder was a large consignment of shingles which it is said cost only $3.60 per M laid down here and of better quality than the home made article which cost $5 per M, and very scarce at that price.

RUBBISH.—Steps should be taken to have the great piles of rubbish removed from the vicinity of Wharf and Johnson streets, also, to have the sidewalk which the enterprising proprietor of the Occidental hotel has laid down, made safe at the corporation expense.

EXPORTS per ss. Sardonyx for San Francisco: 227 tons coal for Dunsmuir, Diggle & Co.; 1950 cases salmon, from the British American cannery, consigned to T. Coleman & Co.; 300 half-bbls. and 65 bbls. salmon from Fred. Kaye, consigned to Richardson & Field; 7 bales furs, value $9,000, shipped by Hartnell.

FOR SAN FRANCISCO.—The steamer Sardonyx arrived outside the harbor last evening from Fraser river, and will leave at 10 o'clock sharp this morning for San Francisco direct. The Grappler will leave Turner, Beeton & Co.'s wharf with passengers and freight.

IT is reported that a serious difficulty occurred at the public school yesterday between a male and female teacher. The gentleman was about to correct a boy, that the lady interfered and that a blow was struck. The trustees have the matter in hand.

TEACHER FOR PORT SIMPSON.—Among the passengers by the steamship Idaho was Mr. S. F. Hopkins from Chicago, who is *en route* to Port Simpson, where he is engaged as a teacher in the Methodist Indian mission school under Rev. T. Crosby.

THE steamer Princess Louise will make a special trip to New Westminster on Monday, leaving here at 7 a. m., to bring down a cargo of cattle. The R. P. Rithet will take up the mails on Tuesday.

ESQUIMALT ELECTION.—It is rumored that judgment in this important case will be delivered on Monday next by Mr. Justice Gray.

ORDERS FOR TUNING should be left at M. W. Waitt & Co. before Nov. 10th as Prof. Francis will be absent for two months in Oregon and Puget Sound. *

[Correspondence of Toronto Mail.]

VICTORIA, Sept. 29, 1882.

H.M.S. Comus, Capt. East, with the Governor General and Princess on board, entered Esquimalt harbor on the evening of the 19th instant. * *

The Vancouver Islanders were certainly not behind hand in

TESTIFYING TO THEIR LOYALTY FOR THE CROWN,

While not one word was heard, in their anxiety not to mar the joyousness of the occasion, with regard to the disappointment they have experienced in that the island railway from Nanaimo to Esquimalt, so long hoped for and so fervently desired, is not as yet commenced. Even the terrible Chinese question was allowed to sleep, and on arrival at the city of Victoria, four miles distant from Esquimalt, it was evident that the celestials had been allowed to take part in the popular demonstration, for one of the many fine arches which spanned the streets had been erected by them.

One circumstance may have helped to make the Victorians less outspoken on this subject than on other occasions, for it is an undoubted fact that the good times which have so favorably affected the old provinces have not passed over Victoria without assisting it also. Where three or four years ago there were only a foundry and some lumber mills, it is observable that various industries have not only been commenced, but give notable

PROMISE OF RAPID EXPANSION.

Excellent soap works, cheap furniture stores, boot and shoe factories, a flourishing cigar factory and printing establishments testify to this fact. Works commenced on the mainland in connection with the Pacific railway have also created some demand, which the Victorians have not been slow to supply.

Their Excellencies are much pleased with the cordiality of the reception accorded to them, and much delighted with the extraordinary scenery of the country, and have been most fortunate in having fine weather. Where the provincial government has exercised its functions since confederation, the results are not wholly satisfactory, witness

THE CONDITION OF THE DRY DOCK,

which with all the stimulus of promised federal and imperial aid, is still under local management and far from completed. Although the work as far as carried on, has been well executed, a dilatoriness worthy of Turkey is observable in the conduct of this public enterprise.

The Canadian element among the people is rapidly becoming stronger and with its increase greater energy may be expected.

ONTARIO MEN

Who hear from their relatives of the lazy and shiftless habits of the Indians of our new territories will be surprised to learn how welcome and willingly rendered is the labor of the numerous Indian bands along the Pacific coast. As a rule these men work well, and are, in the words of one of our informants: "an integral part of the labor of our province."

No jealousy such as is entertained against the Chinese is felt concerning the Indians. They are people of the country it is said, while the Chinese are not. The road on the day of the entrance of the Governor General's party was thronged by all nationalities, and on the sidewalks German could often be heard with the less familiar sounds of the Indian language.

It is much to be desired that more Germans could be induced to settle in the country, for those here have nothing but good to say of their experience; while in some establishments, especially that of Mr. Kurtz, the cigar factory, the employees come almost wholly from the fatherland. Settlement in the rural districts has been slow, partly to be accounted for by the reserve of the belt along the railway, both on the mainland and on the island.

VANCOUVER ISLAND

Possesses throughout its southern sections a climate superior to that of the English south coast, but very like it in general thermometrical features. On the mainland coast the variation of temperature is about from 5° below zero to 90° in summer. Further inland an Ontario climate may be enjoyed, and the Toronto curling club may look in future for some formidable competitors before long, possibly equal in talent with the New Glasgow club, of which they may have recent and vivid recollection.

Nanaimo coal is rapidly taking a "boss" place in the San Francisco market under the name of Wellington coal. There seems no limit to the coal mining possibilities of the island, for the Puget Sound coal is very decidedly inferior. Gigantic masses of excellent iron ore exist on Texada island and other places, while copper is also most abundant. Were the railway opened British Columbia could bring ships alongside the iron and copper mines and coal wharves, transport would be cheap and speculation profitable.

THE EXTREME BEAUTY OF THE SCENERY,

Must attract many. Tranquil gulfs reflect ranges remarkable for variety and boldness of outline. Among the crags and glaciers mountain sheep and goats may be procured within a day's travel of the head of Burrard Inlet. Cariboo, black tailed deer and wapiti are still by no means uncommon, while duck and geese shooting in fall and winter will satiate even one of the preferred of Long Point. Comfort seems to reign on each of the rising settlements, and all that is wanted is an extension of the excellent roads of which most of the country already boasts and the coming of the "iron horse."

To Intending Travellers.

THE GREAT NATURAL DEMAND.

In order to supply the great natural demand for a remedy of real merit, one capable of cleansing the system, purifying the blood, regulating the liver, and acting on the bowels, the California Fig Syrup Company has commenced the manufacture on a large scale of a concentrated Syrup of Figs, and is sending out trial bottles to be given away, so that it costs nothing to try it and convince yourself of its efficacy. And as every family needs a bottle it is also for sale in 75 cent and $1.25 bottles at Langley & Co.'s Drug Store, Agents for B.C. 3

DR. J. COLLIS BROWNE'S

CHLORODYNE

THE ORIGINAL AND ONLY GENUINE.

Advice to Invalids—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks o Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia Rheumatism, Gout, Cancer, Toothache, Meningit &c.

"From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5th, 1880. To J. T. Davenport, Esq., 33, Great Russell street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy and as a general sedative, that have occurred under our personal observation during many years. In Cholerac Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists.

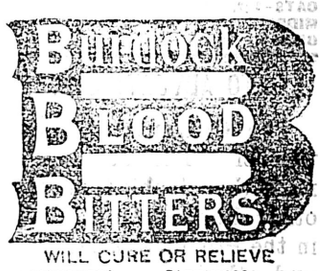

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was undoubtedly the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Caution—Beware of Piracy and Imitations.
